LLM Programs in Private Law and Public Law

Koç University LLM programs in public and private law have a wide range of curriculum including most demanding and less-discussed comparative and international topics of different legal disciplines.

We're Training a New Generation of Lawyers

In today's world, where there is a growing need to adopt legal approaches to cope with local as well as global issues, resolving legal controversies requires a multi-dimensional perspective based on an understanding of different legal disciplines. Consequently, we are seeing an evolution in the profile of lawyers who are able to add to the development of society, economy, politics and the legal profession.

Koç University Law School aims to contribute to the molding of this new lawyer profile, with an understanding based on reliable academic research, as well as practicing experience. We work to instill professional ethical values in our graduates to enable them to work in all fields of law, public or private, without exception.

Our LLM programs in public and private law offer a wide curriculum that includes the most demanding and less-discussed comparative and international topics of different legal disciplines.

About Istanbul

A welcoming cosmopolitan city

The most populous city in Europe, Istanbul forms the economic and cultural center of Turkey and confidently straddles the border between Asia and Europe, as it has done for millennia with its dome, minaret and skyscraper filled skyline.

Throughout its history, Istanbul has been the capital of three great empires - Roman, Byzantine and Ottoman. Every corner of the city reflects a rich architectural and cultural heritage spanning thousands of years.

Situated on either side of the Bosphorus strait, Istanbul is a vibrant, complex and fascinating metropolis. History, culture, great shopping, and excitement await you as a student.

There are over 30.000 international students in the city and you will always find a taste of home with help from the societies, clubs and centers representing the city's diverse population.

The cost of living in Istanbul is very affordable compared to most European capitals in terms of food and local transportation. Rental accommodation prices vary significantly according to neighborhood. A student can expect to spend between 500 - 700 USD/month on accommodation, food, transportation and other expenses.

What Our Students and Alumni Say of Their LLM Experience

Irina Crivet

Koç University LL.M Graduate Ph.D Candidate

The LLM program in Koç University has been the most thought-provoking personal and professional experience I ever had. I chose to apply here for an LLM in Public Law because of wide-reaching reputation. Koç University was the ideal institution for my postgraduate studies because it constantly adapts its academic approach.

Ezgi Arık

Koç University LL.M Graduate Ph.D Candidate

The most important advantage of graduating from Koç University LL.M Program is the question, inquire and criticism-based law education system rather than the memorization-based one. In addition to this, the curriculum of the Program including the courses in the comparative and international areas of law, besides Turkish law oriented courses provides the privilege to its graduates.

Levent Emre Özgüç

Koç University LL.M Student

Looking back to my undergraduate and graduate studies in Koç University Law School, I realize that I have made a choice that I am very content with. Both the university and the faculty are in top positions in their fields because of the national and international opportunities they provide.

Betül Durmuş

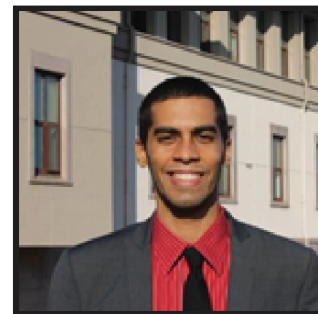

Koç University LL.M Graduate Ph.D Candidate

LL.M. Program at Koç University has provided me the opportunity to realize and improve my academic and practical legal skills. As ranking one of the top Law Schools in Turkey, Koç University Law School offers a dynamic, student-friendly and international research environment. From the very beginning, I am impressed by the curriculum of the LL.M. program as it covers contemporary legal issues which have global and domestic implications.

Hüsamettin Onağ

Koç University LL.M Graduate

I have been working on subjects of legal value for 35 years of my career; however, it was Koç University Law School which has helped me understand the essence and soul of the Law and the concept of Justice, which I believe to be the foundation of everything. I would recommend the LLM Program of Koç University Law School to anyone who wants to improve themselves, regardless of their age and level. The LLM Program has made me realize, again, in the autumn of my life, that learning is a pleasure and inspired my academic studies, made me contemplate on the Rule of Law, which is an institution necessary for the well-being of my country.

**Lawrence Cenk Laws, United States,
Koç University LL.M Graduate**

"I came to Istanbul to gain an international experience. I chose Koç University because it had the best global reputation and best administrative system. I couldn't see myself anywhere else if I was going to come to Turkey. The best part was being able to interact with so many different lawyers and legal scholars from across Europe and the rest of the world. I even had the chance to go to Geneva and see the UN Human Rights Headquarters and that was a very profound experience for me. Being in Istanbul means you are close to so many places that I have been able to travel to other parts of Europe, North Africa and the Middle East."
