## Focus on candidate quality

e-fellows.net was born out of the question of how companies can secure young academic talent in the long term.

Today, we have the largest pool of top talent with around 60,000 students, 175,000 professionals and 5,000 pupils. They are among the top 50 percent of their year groups and subjects. We currently support around 40,000 top-of-class students with our own scholarship, primarily in business, law and STEM subjects.

Our portfolio includes over 60 digital recruiting and employer branding measures, events and books. Every year, around 180 companies and 170 (inter)national universities recruit from our talent pool.
